

Our People Make the Difference

The Federal Reserve Bank of Cleveland is part of the nation's central bank. We've provided many opportunities for professional growth during our history.

For eleven years in a row, we've been named "One of Northeast Ohio's Best Places to Work" by North Coast 99. This prestigious award honors organizations with outstanding employment practices, including compensation, benefits, training, recruitment, retention, community services, and employee communications.

At our state-of-the-art Cleveland Office we are seeking innovative thinkers with vision to build the framework that will carry the Bank into the future. Join our team!

Temporary Application Security Test Analyst - eGovernment Tech Support

Please note that this is a full-time, temporary position. The duration of this position will be May 2011 until August 2011.

The eGovernment department supports major Department of Treasury applications. These include new electronic collection methods that facilitate the ability of agencies to conduct transactions online. Additionally, the department assists Federal agencies in meeting the requirements of the Government Paperwork Elimination Act (GPEA).
